Vision Education

Get More from Your Vision Software and IBM Power System Investments.

Knowledge pays dividends, especially when it is paired with best-of-breed technology. That’s why Vision Solutions offers exceptional education and training to help you most effectively plan, implement, monitor, audit, manage and troubleshoot your Vision high availability, disaster recovery or system management solution

An investment in operational confidence combined with Vision’s industry-leading technologies means efficient, trouble-free and continuously available IT environments.

Welcome to Vision Solutions University!

To help you get the most from your Vision technologies, we offer a wide range of courses that not only cover all products in our lineup but provide education on general operational and planning topics on high availability and disaster recovery planning/best practices, as well as the management of your IBM Power System.

We offer in-person courses, online classes, hands-on training labs, both standardized and customized, so you can choose the type of curriculum and delivery you need for your organization's unique skills and knowledge requirements.

Samples of Vision Solutions University Classes

Your Place or Ours?

You have options! In addition to working directly with you and your staff at your site, you and your team may want to visit one of Vision Solution University's global education centers to devote uninterrupted time to a regularly scheduled class or a course that is tailored specifically for your organization.

Online Too!

Many of our product classes can be taken through self-paced online courses. Students enrolling in Vision Solutions University's web-based classes receive high-quality training similar to the company's traditional classroom settings. Online students can view demos and learn how to manage and operate their solutions and systems just like their in-classroom counterparts.

Get important product education without incurring the cost of travel associated with offsite classroom training!
