

Irvine, Calif. – February 4, 2011

Vision Solutions Announces Italian Version of its iTERA Software

Award-winning iTERA Availability is a cost-effective solution providing exceptional technology and flexibility

Key Facts:

- **Vision Solutions, Inc.**, is releasing its world-renowned iTERA software in a localized Italian version, which provides an easy-to-install, easy-to-manage solution with a rapid return on investment for Italian speaking customers.
- **iTERA Availability** replicates data in real-time and delivers the lowest total cost-of-ownership in its solution class.
- Built from the ground up on a remote-journaling foundation, **iTERA Availability** maintains a complete, accurate backup of your vital data and applications then stands ready to switch users to that fully synchronized backup should the primary system becomes unexpectedly unavailable or you need to perform system maintenance.

Highlights:

- **iTERA Availability is easy to install** with straightforward processes and automatic maintenance updates (automated PTF process) providing low installation and implementation costs.
- **iTERA Availability is easy to manage** through its self-healing solution requiring only minutes a day to oversee and frees IT staff with numerous extensive, reliable self-configuring, self-monitoring and self-healing features. The software allows automated periodic audits or audits on-demand with granular, real-time record-level repair capabilities, which means no waiting. iTERA Availability also executes failovers and role-swaps rapidly, with little operator intervention.
- **iTERA Availability provides a rapid return on investment** by reducing planned and unplanned downtime significantly along with low acquisition, installation and configuration costs. It requires minimal management and monitoring, which minimizes the need for additional skills and overhead. It increases primary system performance and provides added value from read-only processes on the replica system, such as backups, reporting and business intelligence.

Quotes:

Mads Toubro, senior vice president with Vision Solutions:

“Vision Solutions continues to make high availability, disaster recovery and data management technologies easier and more affordable. With iTERA technology now available in an Italian version, we are broadening our worldwide support and presence. This award-winning software provides unprecedented flexibility including easy installation, enhanced monitoring and automation capabilities delivering dramatically simplified configuration, deployment and tuning.”
