FOR IMMEDIATE RELEASE

Vision Solutions Deepens Distribution Channels in Asia via Partnership with The Silverlake Group

The largest provider of integrated banking solutions in Asia is now one of Vision's largest value-added resellers of high availability software.

IRVINE, Calif. (July 12, 2007) Vision Solutions, the leading System i high availability (HA) vendor, today announced the signing of a partner agreement with The Silverlake Group, one of the world's leading banking software vendors for the System i. With this agreement, Vision Solutions expects to increase its already strong presence in the Asian banking market, reflecting the continued growth in adoption of logical replication high availability solutions within the banking industry in this region.

"Vision's partnership with Silverlake, the market leader in the Southeast Asian banking sector, significantly strengthens our banking portfolio in Asia and delivers a true best-of-breed solution to a market that depends on uninterrupted 24x7 system access," says Vision Solutions' Senior Vice President of Integrated Accounts David Wegman. "By strategically aligning our high availability solution capabilities and market coverage with Silverlake's banking solution portfolio and their planned expansion into China and India, we are increasing our commitment to the Asian System i market and creating substantial opportunities."

For more than 19 years, The Silverlake Group has been delivering state-of-the-art solutions to serve the needs of the Banking and Finance, Airline, Utilities and Retail industries across the world, and today is recognized as one of the largest integrated system solution providers in the Asia Pacific region.

"Vision Solutions brings exceptional technology, subject matter expertise, professional services and support to the market that has helped many of our customers ensure that their business-critical Silverlake banking applications maintain necessary round-the-clock availability," says Chang Kok Khoo, regional product manager of The Silverlake Group. "We have always chosen partners carefully and are pleased to partner more closely with Vision as we expand in Asia and other world markets. We look forward to the benefits it will bring each of our companies and our customers."

Vision Solutions' provides award-winning System i high availability technology designed from the start to be easier to use, more reliable, and more affordable to own than any other solution on the market. Vision Solution's ORION, MIMIX, and iTera High Availability solutions have state-of-the-art object auditing and automation capabilities, and scale easily to any size company to meet any data protection and systems continuity requirement.

About The Silverlake Group

The Silverlake Group, a global software organization with an impeccable track record and unparalleled expertise, is committed to delivering high end quality and state-of-the-art solutions serving the needs of the Banking & Finance, Airline, Utilities and Retail industries across the world. It is this commitment that characterizes Silverlake Group's 1,000+ employees and activities, be it systems design, development, implementation, integration, consultancy or support services. The Group is recognized today as one of the most significant integrated system solutions provider in the region. Our customer portfolio includes the region's leading organizations in the banking & finance, airline, utilities and retail industries. Since its inception in 1989, the Silverlake Group has grown tremendously, from a staff force of 15 to an organization with more than 1000 people. The Group's profitability has also enjoyed steady growth over the decade and albeit the difficult economic climate, Silverlake Group has been successful in sustaining a healthy growth rate.
