

## Press Release

# Vision Solutions Announces New Double-Take® Distributor in India

*Partnership provides innovative information and management solutions for any size organisation*

**Irvine, Calif. – April 11, 2011** - [Vision Solutions, Inc.](#), a leading provider of information availability software and services with over 25,000 customers running Windows, Linux, IBM Power Systems and Cloud Computing environments, today announced Select, one of India's leading technology driven marketing organizations is a new distributor of its Double-Take software. Select Technology is a division of wep solutions india limited.

### **Partnership**

The formation of this technology partnership expands Select Technology's services and its ability to provide the best possible protection of applications and information by distributing Vision Solutions' Double-Take Software. Last year, Vision Solutions, Inc. finalized the acquisition of Double-Take Software, Inc. a leading provider of recovery solutions for the rapidly growing Windows, Linux and Cloud Computing markets. The acquisition significantly expands their product offerings and distribution capabilities in the Windows and open systems markets while strengthening its prominence throughout the information availability marketplace.

### **Products**

The partnership expands Select's portfolio by incorporating Double-Take solutions, which provides powerful technologies to increase the resiliency and recoverability of data. Specific Vision Solutions' software they are distributing includes but is not limited to:

#### **Double-Take RecoverNow for Windows**

Highly efficient disk-to-disk protection that enables affordable, yet powerful recovery methods for physical or virtual Windows environments. Double-Take RecoverNow can

replicate changes in real time or take scheduled snapshots of your data—either way, it's a huge improvement over tape.

### **Double-Take Availability for Windows**

Double-Take Availability combines continuous real-time replication and automatic failover capabilities for disaster recovery, high availability, and centralized backup on physical or virtual Windows servers. Double-Take Availability uses patented replication and failover capabilities that continuously capture byte-level changes as they occur and replicates those changes to another server either locally or over any WAN link.

#### **Quotes:**

*Matt Thatcher, vice president of sales, Asia Pacific and Japan, Vision Solutions:*

“This partnership exemplifies how visionary management teamed with best-of-breed technology propels businesses to achieve and exceed goals. Our technologies, solutions and services provide continued business operational excellence and unsurpassed data protection.”

*Raghu R.S, General Manager Select Technology, wep solutions india limited:*

“Vision Solutions’ innovative Double-Take technologies significantly improve ease of use, management, and implementation. Select Technology being a Strong and Trusted local Distributors, plays a crucial role in any Vision Solutions India expansion plan. By engaging end-users and channel partners simultaneously, we create the optimum mix of the push and pull of business, which is critical for the success of any product that is new to the local market. We are excited about this partnership and look forward to expanding Double-Take presence in India.”
